REGISTRATION OF RIGHTS TO LAND.

An Introductory Note on this important subject has recently been published

By

MOORE'S MODERN METHODS, LTD.,

12, Saint Bride Street, London, E.C.4.

THIS Note briefly examines the three principal methods of transfer and record of rights to land, viz., private conveyancing, registration of deeds, and registration of title to land, with a view to illustrating the advantages of the last method, more particularly by reference to the famous Australian Reform initiated by Sir Robert Torrens. Copies of the Note will be sent to any public officers who are interested.

The method of Registration of Title to Land advocated is a system which in common with others requires efficient application to be successful. But it is readily adjustable to the needs of any country and any legislation, if the conditions obtaining locally and the principle of the system have been carefully studied in relation to each other; and it is the only system which can provide an exact, permanent, up-to-date and guaranteed record of Rights to Land. Its operation, when established, should be entirely self-supporting, and economical to those whose rights are recorded. Enquiries regarding the administration and technical operation of the system will be answered by the Firm's Technical Consultants without charge and without any obligation being incurred.

The India Rubber, Gutta Percha and Telegraph Works Co., Ltd.

(Incorporated in England.)

Popularly known as the SILVERTOWN Company because

In 1860, eight years after its founders, Messrs. S. W. SILVER & CO., had erected their works on one acre of land between Barking Creek and Bow Creek, a sufficient number of residents had gathered to justify the name of SILVERTOWN (Silver's Town) being given to the district and when, in 1864, the business was converted into a Public Company under the title of The India Rubber, Gutta Percha and Telegraph Works Co., Ltd., it remained popularly known as THE SILVERTOWN CO.

The QUALITY of the SILVERTOWN COMPANY'S manufactures was such as to bring fame to the district of Silvertown so much so that, to-day, there is hardly an inch of ground free from factory buildings.

The Company's manufactures include the following:—

The Text and Display Linotype.

L&M

Why you should install LINOtypes

Because :

Over forty years of experience is behind every part of a Linotype—that is *why* it is a *fully efficient machine*.

It is a sound investment—it *stands up to its work year after year*: it is *dependable*: it is *built to last*.

Real service is with the machine from the time it is installed and onward—our *depots, our staff of experts, and our Works at Altrincham* combine in maintaining that service.

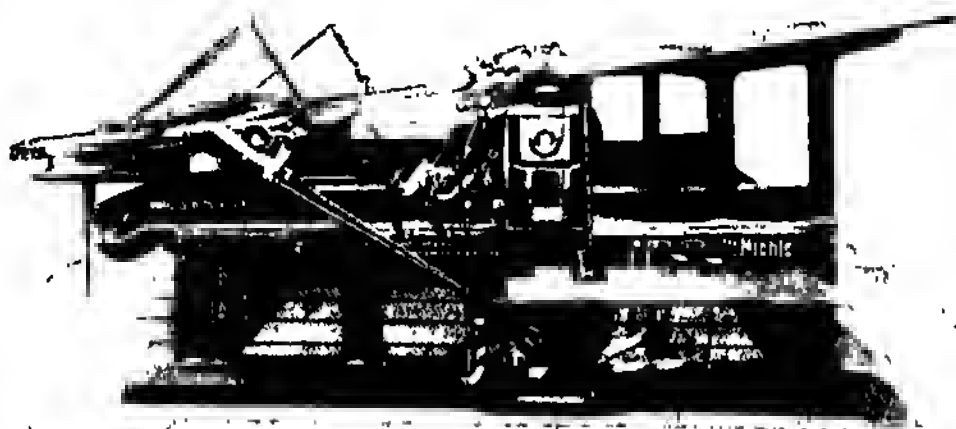

Superiority

We make the Miehle which printers have made famous. That is why the Miehle—always in the highest class—remains the best. It has been made superior by the manufacturers and by the users jointly—

By the manufacturers through the extreme care taken in every stage of its manufacture ;

By the printers through their constant orders, whereby it is possible for us to maintain the high standard of manufacture at a reasonable price.

As the best printing is the most profitable, it will pay you to write for particulars of this British-made press for perfect printing—The Miehle—the two-revolution machine which raised the standard of press work throughout the United Kingdom.

The Miehle Press.
